

Instruction for use of “Annual Notification of Changes” Form

(Applicable to all paint stripping operations)

General

This form may be used to comply with the annual reporting requirements in 13.6.1 of Regulation 1138. The use of this form is optional. However, other means of reporting changes must be prepared according to the applicable requirements under 13.6.2 and 13.6.3 of Regulation 1138.

This “Annual Notification of Changes” form may be used to identify all deviations that occurred during the reporting period. If more than five (5) deviations occurred, the owner or operator should use and attach extra sheet (provided) to the “Annual Notification of Changes” report.

If no deviations occurred during the reporting year, the owner or operator of the affected paint stripping operation does not need to submit an “Annual Notification of Changes” report.

Required Submittal Date

If a deviation occurred during the reporting year, the owner or operator shall complete and submit the “Annual Notification of Changes” report to the Department (with copy to the U.S Environmental Protection Agency) prior to March 1 of the year following the reporting period.

The addresses for these submittals are provided below and in Item 6 of the “Annual Notification of Changes” form.

Provide the name of the affected paint stripping operation, its physical location, and the address where compliance records are kept, if different than the physical location of the facility.
